BOTTLING IN BOND
Means the Filling of Each Bottle of

W. H. McBrayer's Cedar Brook

direct from the original package, under the supervision of the United States Government. The bouquet of the beverage is, unimpaired in the bottling, which is one of the reasons W. H. McBrayer's Cedar Brook has so long enjoyed its world-wide reputation. The public should not be misled by the terms "Distillery Bottling," "Whiskey Bottled at the Distillery" and "Distillery Bottling Only Genuine," catchlines used by makers of cheap whiskies to defraud and deceive. Look at the neck of the bottle for the government stamp—a guarantee of purity—and insist upon W. H. McBrayer's Cedar Brook.

Fortune's Bottled Beer.
The Fortune Brewing Company has added to its large plant a magnificent bottling establishment. The new works adjoin the brewery on Van Buren street, west of Desplaines, and are fitted up with the latest and most improved machinery. Their capacity is very great, and the quality of the goods turned out of the very best. One of the features of the plant is the arrangement for cooling the beer. Not only has the latest cooling machinery been introduced, but the building in which the bottling is done is adjoined by another building in which freezing apparatus is placed. This keeps the temperature of the very walls at freezing point all the time. The Fortune Brewery produces a beer which is famous the world over. Now that its bottling works are completed, no residence should be without it. Telephone "Monroe 40."
